INSTALLATION

1.   Open your gift box and take out all the accessories including
      the base unit,   handset, line cord and the coil cord.
2.   Connect the handset properly to the base unit by the
      supplied coil cord, and place the handset on the base unit
      on the hook button.
3.   Connect the base unit properly to the telephone WALL JACK by the
      supplied   line cord.
4.   If you can hear the dial tone from the handset, installation is
      Successful.

OPERATION

1. MAKING A CALL

    Pick up the handset, Key in the desired number on the
numeric keypad when you hear a dial tone, you may
communicate with the other end when he picks up his handset.

2. RECEIVING A CALL

    The phone will ring up when it receives a calling signal. Pick
up your handset for conversation when it is ringing. Put back
the handset properly to hang up after your conversation is
completed.

3. FLASH FUNCTION

Press the FLASH button during a conversation to disconnect the
call and get a new dialing tone to make another call or redial the
last number.

FLASH button is also used to access a Call Waiting Line(2nd call).

Press FLASH button again to toggle between the two calls.

4. REDIAL FUNCTION

In case the number you called is busy , press FLASH and then press
REDIAL, the number you dialed last will be dialed out
again automatically.   This operation can be repeated.

5. MUTE FUNCTION

When you are in a conversation with another party, and you want
them not to hear you for a while, press and <u>HOLD</u> MUTE button and the
other party will not hear you, <u>RELEASE</u> MUTE button to talk to the other
party.
