Box Contents

MBP36BU Baby Unit

Power adapter

Quick Start Guide

The accessory camera unit can be paired as the additional camera unit of Motorola model MBP36.

IMPORTANT

Accessory camera unit only – requires a MBP36 parent unit to operate.

1 Getting started

Step 1. Connecting the accessory baby unit

1. Connect the small plug of the power adapter to the baby unit and the other end to the electrical outlet.

NOTE

Only use the enclosed power adapter (5.9V DC / 1000mA).

2. Slide the ON/OFF switch to the ON position. The power LED will light up in green.

TIPS

Do not place your unit in the bathroom or other humid areas.

IMPORTANT

Use only the power adapter supplied with the product.

Step 2. Registration (Pairing)

To re-register your Baby Unit, or register a new Baby Unit, follow the procedure below:

1. Press the **≡** button of the parent unit and the menu bar will pop up.
2. Press the **◀ LEFT** button or **▶ RIGHT** button until **☺** is highlighted, and the **del/add/view/scan** menu will pop up.
3. Press the **▲ UP** button or **▼ DOWN** button to select **ADD**, and press the **OK** button to confirm.
4. **CAM 1 / CAM 2 / CAM 3 / CAM 4** will pop up, press the **▲ UP** button or **▼ DOWN** button to select the desired CAM and press the **OK** button to start searching for a camera unit. The green audio level LED will flash rapidly while searching.
5. Press the **OK** button to confirm.
6. Press and hold the **PAIR** button underneath the baby unit until the parent unit finds the camera, beeps and the video from the camera appears.

2 Help

For more solutions, see the full Help section in the User's Guide of Motorola models listed on page 2.

If the Baby Unit has lost its link with the Parent Unit

- Try recharging or replacing the battery pack.
- If the Baby Unit is too far away it may be going out of range, so move the Baby Unit closer to the Parent Unit.
- Reset the units by disconnecting them from the battery and electrical power. Wait about 15 seconds before reconnecting. Allow up to one minute for the Baby Unit and the Parent Unit to synchronize.
- See Step 2. Registration (Pairing), if there is a need to re-register the units.

3 General Information

If your product is not working properly...

1. Read this Quick Start Guide or the User's Guide of one of the models listed on page 2.
