

MOTOROLA

Motorola D5

**Digital Cordless Telephone with
Digital Answering Machine**

For D511, D512, D513 and D514

Warning

Charge the handset for 24 hours before use.

Welcome...

to your new Motorola D5 Digital Cordless Telephone with Digital Answering Machine!

- All handsets are fully cordless for locating anywhere within range.
- 100 Name and Number phonebook.
- Digital answering machine with 60 minutes recording time for high quality message recording.
- Speakerphone for hands-free conversation.
- Caller ID shows you who's calling and see details of the last 40 callers in a Calls list.*
- Redial up to 10 of the last numbers called.
- Register up to 5 handsets to a single base and register each handset with up to 4 different bases.
- Make internal calls and transfer external calls between handsets.
- Choose from 10 different ringtones for internal and external calls as well as numbers stored in the phonebook.

*You must subscribe to your network provider's Caller ID or Call Waiting service for these features to work. A subscription fee may be payable.

Please note that this equipment is not designed for making emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.

Need help?

If you have any problems setting up or using your D5, please contact Customer Services on **(65) 68412668**.
Email: **support@alcom.com.sg**

Alternatively, you may find the answer in the 'Help' section at the back of this guide.

This User Guide provides you with all the information you need to get the most from your phone.

Before you make your first call, you need to set up your phone. Follow the simple instructions in 'Getting Started', on the next few pages.

IMPORTANT

Only use the telephone line cord supplied.

This equipment is not designed for making emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.

Got everything?

- D5 handset
- D5 base

- 2 x rechargeable Ni-MH battery cells
- Power Adaptor for the base
- Telephone line cord

If you have purchased a D5 multiple pack you will also have the following additional items:

- D5 handset & charger
- 2 x rechargeable Ni-MH battery cells
- Power Adaptor for the charger

ECOMOTO: a convergence of efforts by marketing, design, research, engineering, and supply chain management that leads to better products for everyone. A holistic view that focuses on both social and environmental responsibility.

A passion and a shared point of view.

The right thing to do.

- 1) Meets and/or exceeds EMEA environmental regulatory requirements.
- 2) Eco friendly packaging with a minimum 20% post consumer recycled content.
- 3) Phone housing is built with a minimum of 25% post consumer recycle content plastic.
- 4) Energy efficient charger that meets EU Code of Conduct and Energy Star requirements.
- 5) ECO mode function which reduces the transmitted power and energy consumption, please refer to 24.

			13. General information	39	

1. Getting started

WARNING

Do not place your D5 in the bathroom or other humid areas.

Location

You need to place your D5 base within 2 metres of the mains power and telephone wall sockets so that the cables will reach. The socket-outlet shall be installed near the equipment and shall be easily accessible.

Make sure that it is at least 1 metre away from other electrical appliances to avoid interference. Your D5 works by sending radio signals between the handset and base. The strength of the signal depends on where you place the base. Placing it as high as possible ensures the best signal.

HANDSET RANGE

The unit has a range of up to 300 metres outdoors when there is a clear line of sight between the base and handset. Any obstruction between the base and handset will reduce the range significantly. With the base indoors and the handset either indoors or outdoors, the range will normally be up to 50 metres. Thick concrete and stone walls can severely affect the range.

SIGNAL STRENGTH

The **Y** icon on your handset indicates that you are within range of the base. When out of range of the base, the **Y** icon flashes. If you are on a call, you will hear a warning beep.

The line will hang up if the handset moves out of range of the base. Move closer to the base. The handset will automatically reconnect to the base.

Setting up

IMPORTANT

The base station must be plugged into the mains power at all times. Do not connect the telephone line cord into the wall socket until the handset is fully charged. Use only the power adaptor and telephone line cord supplied with the product.

WHICH POWER ADAPTOR?

The power adaptor with a clear connector is for the base unit and the power adaptor with a red colour connector is for the charger unit (for multi-pack only).

Connecting the base

1. Plug the telephone line cord into the socket marked  on the underside of the base.
2. Plug the power adaptor with clear connector into the socket marked  on the underside of the base and plug the other end into the mains power wall socket. Switch on the mains power.

Installing and charging the handset

1. Remove the battery cover from the back of the handset and insert the 2 x rechargeable Ni-MH battery cells supplied. Please note the '+' and '-' markings inside the battery compartment and insert in the correct direction.
2. Slide the battery cover back into place.
3. If you are charging the batteries for the first time, place the handset on the base to charge for at least 24 hours continuously.
4. When the handset is fully charged,  icon will appear steady on the display. Plug the other end of the telephone line cord (make sure that one end is already plugged into the base) into the telephone wall socket.

Connecting the handset and charger (for multi-pack only)

If you have purchased a multiple pack, you will need to carry out this process for all the handsets and chargers.

1. Plug the power adaptor with red connector into the socket marked  on the underside of the charger and plug the other end into the mains power wall socket.
2. Remove the battery cover from the back of the handset and insert the 2 x AAA NiMH rechargeable batteries supplied. Please note the '+' and '-' markings inside the battery compartment and insert in the correct direction.
3. Slide the battery cover back into place.
4. If you are charging the batteries for the first time, place the handset on the charger to charge for at least 24 hours continuously.
5. When the handset is fully charged,  icon will appear steady on the display. The display will show the time and handset number (e.g. 2) to indicate that it is registered to the base.

IMPORTANT

Warning! Use only rechargeable Ni-MH battery cells (2 x AAA Ni-MH 550mA rechargeable batteries) supplied with your D5.

Please do not use alkaline or non rechargeable batteries. It may cause permanent damage to the product and void the warranty.

BATTERY LOW WARNING

If  icon flashes on the display and you hear a warning beep every minute during a call, you will need to recharge the handset before you can use it again.

When charging,  icon will scroll on the display.

Once fully charged scrolling will stop.

BATTERY PERFORMANCE

In ideal conditions, fully charged batteries should give up to 12 hours talk time or up to 150 hours standby time on a single charge.*

Note that new batteries do not reach their full capacity until they have been put to normal use for several days.

To keep your batteries in the best condition, leave the handset off the base for a few hours at a time.

Running the batteries right down at least once a week will help them last as long as possible.

** All talk and standby times are approximate and depend on features selected and usage pattern.*

The charge capacity of rechargeable batteries will reduce with time as they wear out, giving the handset less talk/standby time. Eventually they will need to be replaced.

After charging your handset for the first time, subsequent charging time is about 6–8 hours a day. Batteries and handset may become warm during charging. This is normal.

Date and time

If you have subscribed to a Caller ID Service, the date and time is set automatically for all handsets when you receive your first call.

If you do not have a Caller ID service, you can set the date and time manually.

Set the date manually

1. Press , scroll  to DATE-TIME and press .
- The display shows DATE SET.
2. Press  to select.
3. Enter the date (e.g. 12--08 for 12th of August) and press  to confirm.

Set the time manually

1. Press , scroll  to DATE-TIME and press .
2. Scroll  to CLOCK SET and press .
3. Enter the time in 24 hour format (e.g. 18--30 for 6:30pm) and press  to confirm.

Your D5 is now ready for use.

2. Getting to know your phone

Overview of your handset

**A Earpiece****B Display**

See page 11 for an overview of the display icons.

C Secrecy / Clear / Back

During a call, press to switch Secrecy on/off, page 15.

In menu mode, press to return to previous menu or press and hold to return to standby.

In editing mode, press to delete characters and digits.

When viewing the redial/calls list, press to delete the displayed entry or press and hold to delete all entries.

D Redial / Up

In standby mode, press to open the redial list, page 17.

During a call, press to increase earpiece volume, page 15.

When the phone is ringing, press to increase the handset ringer volume, page 20.

Press to scroll through the menu options, redial list, calls list and phonebook entries.

E Menu / OK

Press to open the Menu, page 13.

Press to select menu options and to confirm a displayed option.

F Phonebook / Exit

In standby mode, press to open the phonebook menu, page 18.

When viewing the redial/calls list or when editing, press to exit and return to standby.

G Calls list / Down

In standby mode, press to open the calls list, page 27.

During a call, press to decrease earpiece volume, page 15.

When the phone is ringing, press to decrease the handset ringer volume, page 20.

Press to scroll through the menu options, redial list, calls list and phonebook entries.

H Intercom

Used to make internal calls and transfer calls to other D5 handsets registered to the base, page 15.

I Hands-free speakerphone

During a call, press to switch hands-free on and off, page 16.

J * / Keypad lock

Press and hold to lock the keypad, page 18.

To unlock, press any key and follow the on screen instructions.

K Recall / Power on/off

Use with switchboard/PABX services and some network services.

When on an external call, press Recall to get a fresh dialling tone or to access call waiting when you hear the signal.

Press the key again to toggle between your two callers.

Press and hold to switch the handset on/off, page 15.

L Talk / End call

Press to make, receive and end calls, page 15.

Handset LCD Display

Time or Handset name

In standby mode, press and hold **0** to switch handset idle screen between handset name or time.

Display icons

- ext** Flashes to indicate an incoming external call
- ext** External call in progress
- int** Flashes to indicate an incoming internal call
- int** Internal call in progress
- ext int** 3-way call in progress or transfer an external call to another D5 handset registered to the base
- Y** Eco mode is ON
- oo** Flashes to indicate new voicemail messages received
Off when you have no voicemail messages
(this feature is dependent on your Network Service provider supporting the service)

- Y** Indicates signal strength
Flashes when handset is not registered to the base or if you go out of range
- Speaker** Hands-free mode is ON
- Menu** Menu is opened
- Phonebook** Phonebook is opened
- Phone** Flashes to indicate new calls list entries received*
- Answered call** Answered call (when viewing the Calls list)*
- Unanswered call** Unanswered call (when viewing the Calls list)*
- Key** Keypad is locked
- Answering machine** Answering machine is ON
- Number** Displayed number is longer than 12 digits

The approximate power levels of your battery are indicated as follows:

- Battery icon (full)** Battery is fully charged
- Battery icon (partial)** Battery is partially charged
- Battery icon (low)** Battery is running low
Flashes when battery is almost fully discharged

** For this feature to work, you must subscribe to Caller ID Service from your network operator. A subscription fee may be payable.*

Overview of the base

A Page

In standby mode, press to ring the handset(s), page 18.
Press and hold to enter registration mode when registering handsets, page 29.

B Skip

Press to skip forward through your answering machine messages.
Press **▶▶** to announce the current answer delay setting and press and hold **▶▶** to set the answer delay setting.

C Vol +

Increase playback volume.

D Vol -

Decrease playback volume.

E Stop

Stops message playback.
Press to announce the current day and time setting.

F Play/Pause

Play or pause recorded messages.
Press to play new messages or press and hold to play all message.

G Del

Press to delete recorded messages during playback or press to announce the current remote access code setting.

H Ans On/Off

Switches the answering machine on/off.

I New message indicator

Displays the number of new messages and memos received.

J Prev

Press to skip backward through your answering machine messages.
Press and hold **◀◀** to turn message alert on/off.

Navigating the menus

Your D5 has an easy to use menu system.

Each menu has a list of options, which you can see on the menu map on the following page.

When the handset is switched on and in standby:

1. Press  to open the main menu.
2. Then use  or  buttons to scroll through the available options.
3. Press  to select an option.
To return to the previous menu level, press .
To exit the menu and return to standby, press and hold .

NOTE

If no buttons are pressed for 30 seconds, the handset returns to standby automatically.

3. Using the phone

NOTE

Your handset will automatically time the duration of all external calls. The call timer will display after the first 15 seconds of your call. When the call ends, the total duration of your talk time is shown for 5 seconds.

3.1 Switch the handset on / off

Press and hold  to switch the handset on or off.

3.2 Calls

3.2.1 Make a call

1. Press .
2. When you hear the dial tone, dial the number.

3.2.2 Preparatory dialling

1. Dial the number first. If you make a mistake press  to delete the last digit.
2. Press  to dial.

3.2.3 End a call

Press , or place the handset back on the base or charger.

3.2.4 Receive a call

When you receive an external call, the phone rings and **ext**

icon flashes on the display.

1. Press  to answer the call, or simply lift up the handset to answer the call.

NOTE

If you prefer to press  when you lift up the handset to answer a call, you will need to switch Auto answer off, see page 21.

3.3 Adjust the earpiece volume

During a call, press  or  to increase or decrease the volume. There are 5 levels to choose from.

3.4 Secrecy

You can mute your handset so that you can talk to someone nearby without your caller hearing.

1. During a call, press . The display shows **MUTE** and your caller cannot hear you.
2. Press  again to resume your call.

3.5 Intercom

3.5.1 Make an internal call

If you have more than one handset registered to the base, you can make internal calls between two handsets.

 icon is displayed to indicate an internal call.

1. Press **INT** followed by the number (1-5) of the handset you want to call.

3.5.2 Receive an internal call

When you receive an internal call, **int** icon flashes and the handset number that is calling you is displayed.

1. Press  to answer the call.

3.5.3 Transfer a call

You can transfer an external call to another handset registered to the base.

During an external call:

1. Press **INT** followed by the handset number (1-5) that you want to transfer to.
2. When the other handset answers, press  to complete the transfer.

TIP

*If there is no answer from the other handset and you wish to return to your external caller, press **INT**.*

Your external call resumes automatically after 30 seconds if there is no answer.

3.5.4 3-way conference call

You can hold a 3-way conference call between 2 internal callers and 1 external caller.

During a call with an external caller:

1. Press **INT** followed by the handset number (1-5) that you want to establish a conference call.
2. When the other handset answers, press **#** to connect all three callers to begin the conference call.
 icon is displayed.
3. If there is no answer from the other handset, press **INT** to return to your external caller.
4. Press  to end the call.

3.6 Hands-free speakerphone

Hands-free lets you talk to your caller without holding the handset. It also enables other people in the room to listen to the conversation over the loudspeaker.

3.6.1 Make a hands-free call

1. Dial the number then press .
 icon is displayed and you will hear the call over the handset loudspeaker.
2. Press  to switch the call between the earpiece and the loudspeaker.
3. Press  to end the call.

TIP

*During a hands-free call, press **▲** or **▼** to adjust the volume.*

3.6.2 Answer a call hands-free

When the phone rings, press  to answer the call.

3.6.3 Switch to hands-free during a call

During a call, press  to put the call on the loudspeaker.

To switch hands-free off and return the call to the earpiece, press  again.

3.7 Redial

The last 10 entries dialed are stored in the redial list.

3.7.1 View or dial an entry

1. Press  to open the Redial list.
2. Scroll  or  to the entry you want.
3. Press  to dial the displayed entry or press  to return to standby.

TIP

If the caller's number exactly matches an entry stored in the phonebook, the name is displayed. Press  to see the caller's number.

3.7.2 Copy a Redial list number to the phonebook

1. Press  to open the Redial list.
2. Scroll  or  to the entry you want.
3. Press .
The display shows **ADD ?**.

4. Press  again.
The display shows **NAME ?**.
5. Enter the name and press . The number is displayed.
6. Edit the number if necessary, then press .
7. Press  or  to select the ringer melody you want and press . The number is stored.

NOTE

See "ENTERING NAMES" and "WRITING TIPS" on page 19.

3.7.3 Delete an entry

1. Press  to open the Redial list.
2. Scroll  or  to the entry you want and press .
The display shows **DELETE ?**.
3. Press  to confirm or  to cancel.

3.7.4 Delete the entire Redial list

1. Press  to open the Redial list.
2. Press and hold .
The display shows **DELETE ALL ?**.
3. Press  to confirm or  to cancel.

3.8 Lock/unlock the keypad

You can lock the keypad so that it cannot be operated accidentally while carrying it around.

NOTE

When the keypad is locked, you can still answer incoming calls and operate the handset as normal. When the call ends, the keypad lock comes on again.

1. Press and hold . icon is displayed.
2. To unlock the keypad, press any key on your handset. The display shows **PRESS ***.
3. Press within 3 seconds.

3.9 Paging/Find handset

You can alert a handset user that they are wanted or locate a missing handset.

Paging calls cannot be answered by a handset.

1. Press the button on the base. All handsets registered to the base will ring.
2. To stop the ringing, press the button on the base again or press any button on the handset.

4. Phonebook

You can store up to 100 names and numbers in the phonebook. Names can be up to 12 characters long and numbers up to 24 digits. You can also select different ringer melodies for the phonebook entries.

4.1 Store a name and number

If you have subscribed to Caller ID Service and wish to display the name of your caller instead of the number, save the full telephone number including the area code to your phonebook.

You can store multiple entries with the same number. However, to prevent unnecessary duplicated entries, you can only store the same name once.

1. Press , scroll to **PHONEBOOK** and press .
The display shows **ADD ENTRY**.
2. Press to select.
The display shows **NAME ?**.
3. Enter the name and press .
The display shows **NUMBER ?**.
4. Enter the number and press .
The display shows **MELODY 1**.

5. Press ▲ or ▼ to select the ringer melody you want and press .
The display shows **ADD ENTRY**.
6. Enter the next name and number entry that you wish to store in your phonebook or press  twice to return to standby.

ENTERING NAMES

Use the keypad letters to enter names, e.g. to store **TOM**:

Press  once to enter T.

Press  three times to enter O.

Press  once to enter M.

WRITING TIPS

Press  to delete the last character or digit.

Press ▲ or ▼ to move between characters/digits.

Press  to insert a space.

Use  twice to insert a dash.

4.2 View or dial an entry

1. Press .
 icon is displayed.
2. Scroll ▲ or ▼ to the entry you want.
OR

Enter the first letter of the name to search alphabetically. The first name that starts with this letter or the nearest letter in the alphabet will be displayed.
Scroll ▲ or ▼ to the entry you want.

3. Press  to dial or  to return to standby.

TIP

When the name is displayed, you can switch between the name and number by pressing .

4.3 Edit a name and number

1. Press , scroll ▼ to **PHONEBOOK** and press .
2. Scroll ▼ to **MODIFY ENTRY** and press .
3. Scroll ▲ or ▼ to the entry you want to edit, or search alphabetically and press .
The existing name is displayed.
4. Press  to delete the name if required, then enter the new name and press .
The existing number is displayed.
5. Press  to delete the number if required, then enter the new number and press .
6. Scroll ▲ or ▼ to select a new ringer melody and press .
The display shows **ADD ENTRY**.

7. Enter the next name and number entry you wish to store in your phonebook or press twice to return to standby.

4.4 Delete an entry

1. Press , scroll to **PHONEBOOK** and press .
2. Scroll to **DELETE ENTRY** and press .
3. Scroll or to the entry you want to delete, or search alphabetically and press .
The display shows **CONFIRM ?**.
4. Press to confirm or to cancel.

5. Handset settings

5.1 Handset ringer volume

You can adjust the ring volume and set different volume levels for your internal and external calls. Choose from 5 volume levels or Off.

1. Press , scroll to **HANDSET** and press .
2. Press or to select **INT RING VOL** or **EXT RING VOL** and press .
3. Press or to select the volume (1 - 5 or OFF).
4. Press to confirm or to return to the previous menu.

TIP

When the phone is ringing, you can adjust the ringer volume by pressing or .

5.2 Handset ringer melody

You can set different ringer melodies for your internal and external calls. Choose from 10 different ringer melodies.

You will hear a sample ring as you scroll to each ring melody.

1. Press , scroll to **HANDSET** and press .
2. Press or to select **INT MELODY** or **EXT MELODY** and press .

3. Press ▲ or ▼ to select the ringer melody (1 - 10).
4. Press to confirm or to return to the previous menu.

NOTE

Calls from the numbers that you have stored in the phonebook will ring using the ringer melody you have set when you store the entry.

5.3 Auto answer

Your phone is set to answer calls by lifting the handset off the base or charger. You can switch this feature off so that calls can only be answered by pressing .

1. Press , scroll ▼ to **HANDSET** and press .
2. Scroll ▼ to **AUTO ANSWER** and press .
3. Press ▲ or ▼ to select **ON** or **OFF** and press to confirm.

5.4 Handset name

If you are using more than one handset with your D5 base, you can set a personalized name for each handset to easily distinguish between them.

A name can be up to 10 characters long.

1. Press , scroll ▼ to **HANDSET** and press .
2. Scroll ▼ to **NAME** and press .

3. Enter the new handset name and press to confirm.

NOTE

The handset name will only be displayed for approximately 20 seconds when no button is pressed. If you make a mistake, press to delete the last character or digit.

See “ENTERING NAMES” and “WRITING TIPS” on page 19.

5.5 Language

1. Press , scroll ▼ to **HANDSET** and press .
2. Scroll ▼ to **LANGUAGE** and press .
3. Press ▲ or ▼ to select your preferred language and press to confirm.

5.6 Key beep

When you press a button on the handset keypad, you will hear a beep. You can switch these beeps on or off.

1. Press , scroll ▼ to **HANDSET** and press . The display shows **BEEP**.
2. Press to select. The display shows **KEYTONE**.
3. Press to select.

4. Press ▲ or ▼ to select ON or OFF and press  to confirm.

5.7 Battery low warning beep

When the battery is almost fully discharged, you will hear a warning beep every minute during a call. You can switch these beeps on or off.

1. Press , scroll ▼ to HANDSET and press .
The display shows BEEP.
2. Press  to select.
3. Scroll ▼ to LOW BATTERY and press .
4. Press ▲ or ▼ to select ON or OFF and press  to confirm.

5.8 Out of range warning beep

If the handset goes out of range, you will hear warning beeps during a call. You can switch these beeps on or off.

1. Press , scroll ▼ to HANDSET and press .
The display shows BEEP.
2. Press  to select.
3. Scroll ▼ to OUT RANGE and press .
4. Press ▲ or ▼ to select ON or OFF and press  to confirm.

5.9 Keypad lock using the menu

You can use the menu to lock the keypad.

1. Press , scroll ▼ to HANDSET and press .
2. Scroll ▼ to KEYLOCK ? and press  to confirm.
 icon is displayed.

TIP

To unlock the keypad, press any button on the keypad, then press  within 3 seconds.

6. Base settings

6.1 Base ringer volume

Choose from 5 volume levels or Off.

1. Press , scroll **▼** to **SETUP** and press .
The display shows **BASE VOLUME**.
2. Press .
3. Press **▲** or **▼** to select the volume (1 - 5 or OFF).
4. Press  to confirm or  to return to the previous menu.

6.2 Base ringer melody

Choose from 5 different base ringer melodies.

You will hear a sample ring as you scroll to each ringer melody.

1. Press , scroll **▼** to **SETUP** and press .
2. Scroll **▼** to **BASE MELODY** and press .
3. Press **▲** or **▼** to select the ringer melody (1 - 5).
4. Press  to confirm or  to return to the previous menu.

6.3 Change base PIN code

Some functions are protected by a 4 digit PIN code which must be entered if you want to change the settings. The default PIN is 0000. You can change this to your own preferred number.

When you enter a PIN, the digits are shown as ****.

1. Press , scroll **▼** to **SETUP** and press .
2. Scroll **▼** to **PIN CODE** and press .
3. Enter the 4 digit PIN code (default = 0000) and press .
4. Re-enter the new PIN again and press  to confirm.
5. The display shows **RETYPE**. Re-enter the new PIN again and press  to confirm.

IMPORTANT

If you change the PIN code, please keep a record of the new number.

6.4 Dial mode

Your D5 is set to tone dialling. You should only need to change this if connected to an older type of switchboard/PBX which requires Pulse dialling.

1. Press , scroll **▼** to **SETUP** and press .
2. Scroll **▼** to **DIAL MODE** and press .

3. Press ▲ or ▼ to select **TONE DIAL** or **PULSE DIAL** and press to confirm.

6.5 Recall mode

Depending on your country and network operator, your D5 has the recall time set as 600 ms (RECALL 2). It is unlikely that you need to change this setting unless advised to do so.

1. Press , scroll ▼ to **SETUP** and press .
2. Scroll ▼ to **RECALL** and press .
3. Press ▲ or ▼ to select **RECALL 1** (short flash time) or **RECALL 2** (long flash time) and press to confirm.

6.6 Restore default settings

You can restore your D5 to its default (original) settings.

All the handsets that are registered to the base will be retained.

WARNING

Resetting your phone to its default settings will delete all entries in the Phonebook and Calls list. All handset and base settings will also be reset.

1. Press , scroll ▼ to **SETUP** and press .
2. Scroll ▼ to **DEFAULT** and press .
3. Enter the 4 digit PIN code (default = 0000) and press .
The display shows **CONFIRM ?**.

4. Press to confirm or to return to the previous menu. Your D5 will restart automatically.

6.7 Emergency default

If you have lost your PIN code, you can still restore your D5 to its default settings.

1. Remove the batteries from the handset.
2. Press and hold while replacing the batteries.
The display shows **DEFAULT**.
3. Press to confirm. Your D5 will restart automatically.

6.8 Eco mode

Your D5 offers ECO mode function which reduces the transmitted power and energy consumption when switched on.

To switch Eco mode on:

1. Press , scroll ▼ to **SETUP** and press .
2. Scroll ▼ to **ECO MODE** and press .

3. Press ▲ or ▼ to select ON or OFF and press  to confirm.

When Eco mode is switched off, the circle around **Y** disappears.

NOTE

When ECO mode is set to ON, the handset range will be reduced.

6.9 Default settings

Low battery beeps	ON
Out of range warning beeps	ON
Key beep	ON
Auto answer	ON
Internal melody	1
Internal volume	3
External melody	3
External volume	3
Ear volume	3
Base melody	2
Base ringer volume	3
Phonebook	Empty
Calls list	Empty
Redial list	Empty
PIN code	0000
Dial mode	Tone
Recall mode	RECALL 2 (600 ms)
Eco mode	OFF
Keypad lock	OFF
Answering machine	ON
Answer delay	6 rings

7. Clock & alarm

If you have subscribed to Caller ID Service, the date and time will be set on all your handsets whenever a call is received. You can also manually set the date and time on the individual handsets.

7.1 Set the date

1. Press , scroll ▼ to **DATE-TIME** and press .
The display shows **DATE SET**.
2. Press  to select.
3. Enter the date (e.g. 12--08 for 12th of August) and press  to confirm.

7.2 Set the time

1. Press , scroll ▼ to **DATE-TIME** and press .
2. Scroll ▼ to **CLOCK SET** and press .
3. Enter the time in 24 hour format (e.g. 18--30 for 6:30pm) and press  to confirm.

7.3 Set alarm

Each handset can have a different alarm setting.

1. Press , scroll ▼ to **DATE-TIME** and press .
2. Scroll ▼ to **ALARM SET** and press .
3. Press ▲ or ▼ to select **ON** or **OFF** and press  to confirm.
4. If you select **ON**, enter the time in 24 hour format (e.g. 07--30 for 7:30am) and press  to confirm.

7.4 Switch off alarm ring

When the alarm sounds, press any button to switch it off.

NOTE

If you are using the handset to make a call when the alarm ring is due, you will hear a beep in the earpiece.

8. Caller ID and the Calls list

IMPORTANT

To use Caller ID, you must first subscribe to the service from your network provider. A subscription fee may be payable.

To ensure that the caller's name is displayed, make sure you have stored the full telephone number, including the area code in the phonebook.

If the caller's number is stored in the phonebook, the name assigned to it will be displayed.

If the call is a withheld call, **WITHHELD** will be displayed.

If the number is unavailable, **UNAVAILABLE** will be displayed.

If the call is from an international number, **INTERNATIONAL** will be displayed.

If the call is from the operator, **OPERATOR** will be displayed.

If the call is from a payphone, **PAYPHONE** will be displayed.

If the call is from a ringback request, **RINGBACK** will be displayed.

8.1 Caller ID

If you have subscribed to a Caller ID Service, you will be able to see your caller's number on your handset (provided it is not withheld) prior to answering the call. The display can show the first 12 digits or characters of the phone numbers and names.

If your caller's name and number are stored in the phonebook and a name/number match is found, you will see the caller's name on the display instead.

8.2 Calls list

The Calls list stores details of your last 40 received calls, including the phone number and date and time of the call.

The Calls list also alerts you when you have unanswered calls.

The caller's details are stored in the Calls list whether or not you have answered the call. The list is shared by all handsets registered to the base. When the list is full, and a new call is received, the oldest entry will be deleted automatically.

When a new call is received in the Calls list,  icon will flash on the display in standby mode to alert you. When you have viewed the new call,  icon disappears but  icon will remain.

8.2.1 View the Calls list

1. Press  to open the Calls list. If there are no calls in the list, the display shows **EMPTY**.
2. Press  or  to scroll through the list.
 - If the call was answered,  icon is displayed as you scroll to the entry. If the call was unanswered,  icon is displayed as you scroll to the entry. When you reach the end of the list, the handset will beep.

- If the caller's number exactly matches an entry stored in the phonebook, the display will alternate between the name and the number. Press to see the caller's number.
- If the telephone number is longer than 12 digits, icon is displayed. Press to see the remaining digits.
- Press again to see the time and date of the call.
- Press again to access the option to store the entry in your phonebook.

8.2.2 Dial a number in the Calls list

1. Press to open the Calls list.
2. Scroll or to the entry you want.
3. Press to dial the displayed entry.

8.2.3 Modify and dial a number in the Calls list

1. Press to open the Calls list.
2. Scroll or to the entry you want.
3. Press repeatedly until the display shows **MODIFY ENTRY ?**.
4. Press again. The display shows **NUMBER**.
5. Press or to move the cursor to edit or delete number.

6. Press Digit key to input a number or to delete a number.
7. Press to dial out using the modified number.

NOTE

The edited entry cannot be saved in the Calls list.

8.2.4 Copy a Calls list number to the phonebook

1. Press to open the Calls list.
2. Scroll or to the entry you want.
3. Press repeatedly until the display shows **ADD ?**.
4. Press again.
The display shows **NAME ?**.
5. Enter the name and press .
The number is displayed.
6. Edit the number if necessary, then press .
7. Press or to select the ringer melody you want and press . The number is stored.

NOTE

See "ENTERING NAMES" and "WRITING TIPS" on page 19.

8.2.5 Delete an entry

1. Press ▼ to open the Calls list.
2. Scroll ▲ or ▼ to the entry you want and press  .
The display shows **DELETE ?**.
3. Press  to confirm or  to cancel.

8.2.6 Delete the entire Calls list

1. Press ▼ to open the Calls list.
2. Press and hold  .
The display shows **DELETE ALL ?**.
3. Press  to confirm or  to cancel.

9. Using additional handsets

You can register up to five handsets to your D5 base to extend your phone system without having to install extension sockets for each new phone.

Each D5 handset can be registered with up to four bases. You can then select the base you prefer to use.

If you have purchased a D5 multiple pack, all additional handsets come pre-registered to the base.

If you have purchased an additional handset separately, you must register it to your D5 base before it can be used.

9.1 Registering an additional handset

NOTE

Handset batteries must be fully charged before you start to register. Hold your handset close to the base during the registration process.

Handsets that were supplied with your D5 base are already pre-registered.

On the base:

1. Press and hold the  button for 3 seconds until you hear two beeps. The base will remain in registration mode for 90 seconds.

On the handset:

1. Press , scroll ▼ to REGISTER and press .
 2. Scroll ▼ to REG BASE and press .
 3. Enter the base number (1 - 4).
The base numbers that are already in use flashes. The display shows SEARCHING....
 4. When the handset finds the base signal, the display shows SEARCHING...X, where X indicates the base identification number.
 5. The display will ask for the PIN to be entered. Enter the 4 digit PIN code (default = 0000) and press .
- You will hear a beep if the registration is successful. The handset is automatically assigned an available handset number. Use this number when making internal calls.

NOTE

If registration is not successful the first time, please repeat the process again in case the base registration period ran out of time. If the base is not found after a few seconds, the handset returns to standby. Try registering again.

If there are already 5 handsets registered to the base, the registration will fail. You must de-register another handset before you can register a new one.

9.2 Register a different make of handset to your D5 base

IMPORTANT

DECT GAP Profile only guarantees that basic calling functions will work correctly between different makes/types of handset and base. There is a possibility that certain devices such as Caller ID will not work correctly and TAM setting may not be available.

On the base:

1. Press and hold the  button for 3 seconds until you hear two beeps. The base will remain in registration mode for 90 seconds.

On the handset:

Follow the registration instructions given in your handset's user guide.

9.3 Select a base

If your D5 handset is registered to more than one base (e.g. one at work and one at home), you can select which base to use.

Each handset can be registered with up to four bases.

1. Press , scroll ▼ to REGISTER and press .
- The display shows SELECT BASE.

2. Press . All the bases that your handset has been registered to will be displayed, e.g. **BASE 1 2 3 4**. The currently selected base number flashes.
3. Enter the base number that you want to use. Alternatively, press **▲** or **▼** to scroll to **AUTO**.
4. Press  to confirm. You will hear a confirmation beep and the display will return to the previous menu.

TIP

*If you select **AUTO**, your handset will automatically search for and connect to the base with the strongest signal.*

9.4 De-register a handset

Use one handset to de-register another. You cannot de-register the handset that you are using.

1. Press , scroll **▼** to **SETUP** and press .
2. Scroll **▼** to **DEL HANDSET** and press .
3. Enter the 4 digit PIN code (default = 0000) and press .
4. Enter the handset number that you want to de-register. You will hear a confirmation beep and the display will return to the previous menu.

10. Using the answering machine

Your D5 product can digitally record up to 60 minutes of messages. As well as recording incoming messages, you can record memos for other users.

You can operate your answering machine from:

- the base
- the handset
- or remotely, from any other DTMF telephone, see page 37.

You will need to set the correct day and time (if you have not already done so) so that you will know when each message was received.

10.1 Set the answering machine day and time using the handset

Your answering machine will automatically add the day and time to each message that is received.

NOTE

If you subscribe to Caller ID service, the date and time will be set on the handset automatically but you will still need to set the correct 'Day' as below.

Set the day:

1. Press , scroll **▼** to **TAM SETTINGS** and press  to confirm.

2. Scroll ▼ to **DAY SETTING** and press . The current day is displayed.
3. Press ▲ or ▼ to select the required day and press to confirm.

10.2 Check the current day and time setting using the base

1. Press ■. The current day and time setting is announced.

10.3 Switch the answering machine on/off Using the base:

1. Press .

Using the handset:

1. Press , scroll ▼ to **TAM SETTINGS** and press .
2. **ANS ON/OFF** is displayed, press .
3. Press ▲ or ▼ to select either **ON** or **OFF** and press .

10.4 Listening to your messages

Using the base:

1. Press ►||. The number of new messages is announced, then the new message(s) will be played.
OR
Press and hold ►|| and the number of all (new and old)

messages is announced. The oldest message is played first.

During playback:

Press ►||, to pause a message. You will hear a beep every 10 seconds.

Press ►|| again to resume playback.

Press ►| to play the next message.

Press ◀ once to repeat the current message.

Press ◀ twice to play the previous message.

Press ✕ to delete the current message. You will hear, 'Message deleted'.

Press and hold ►| to play messages at 1.5 times normal speed. Release the button to continue playback at normal speed.

NOTE

If you select a message to be deleted, it will be deleted at the end of playback after the 8 second countdown and confirmation tone.

At the end of playback:

You will hear 'End of messages. To delete all messages, press delete'. You then have 8 seconds in which you can:

Press ✕ to delete all messages, you will hear 'All messages deleted'.

10.5 Adjust the speaker volume

You can adjust the base loudspeaker volume from low to high. Press ▲ to increase the volume, or ▼ to decrease the volume.

Using the handset:

1. Press , **PLAY MESSAGE** is displayed, press .
2. **NEW MSG** is displayed and the number of new messages, press  to play new messages only or scroll to **ALL MSG** and press  to play all of your messages. You will need to place the handset to your ear to hear the message(s).

During playback:

Press ▲ or ▼ to adjust the playback volume.

Press  or  once to repeat the current message.

Press  or  twice to play the previous message.

Press  or  to play the next message.

Press  to delete the current message. You will hear, 'Message deleted'.

At the end of playback:

You will hear, 'End of messages. To delete all messages, press delete'. To delete all messages, press , you will hear, 'All messages deleted'. If you do not press any buttons during the countdown the display will return to idle and any messages you selected individually for deletion will be saved.

Outgoing messages (OGMs)

The outgoing message is the message a caller first hears when the answering machine picks up their call.

Your D5 product has two pre-recorded outgoing messages, Answer & Record or Answer Only, and you can also record your own.

The pre-set Answer and Record outgoing message, that allows your caller to leave a message, is 'Hello, your call cannot be taken at the moment, so please leave your message after the tone'.

10.6 Record your own OGM

This will replace the pre-recorded or your own previous outgoing message. However, you can re-instate the pre-recorded OGM at any time by deleting your own recorded OGM.

Using the handset:

1. Press , scroll to **TAM SETTINGS** and press .
2. Scroll  to **OGM SETTING** and press .
3. Scroll  to **RECORD OGM** and press .
4. Press  or  to select either **ANS AND REC** or **ANS ONLY** and press .
5. Place the handset to your ear. You will hear, 'Please speak after the tone. To end recording, press #'.
6. After the long beep speak your message slowly and clearly into the handset, to end recording press . Your message will then be played back to you through the handset.

10.7 Answer Only

With Answer Only selected, your caller will hear an announcement only and will not be able to leave a message. The pre-set Answer Only outgoing message is 'Hello, your call cannot be taken at the moment and you cannot leave a message, so please call later'.

If recording your own Answer Only message, remember to advise your caller that they will not be able to leave a message.

To reinstate either pre-recorded message, delete your own message.

10.8 Check your current OGM

Using the base:

1. Press  on the base. The machine announces the type of OGM and plays it.

NOTE

If your Answer machine is turned off you will need to press  to turn it back on and the OGM will be played automatically.

Using the handset:

1. Press , scroll to **TAM SETTINGS** and press .
2. Scroll to **OGM SETTING** and press .
3. **PLAY OGM** is displayed, press .
4. Press  or  to select either **ANS AND REC** or **ANS ONLY** and press .
5. Place the handset to your ear, and you will hear the current OGM.

10.9 Select the OGM

Using the handset:

1. Press , scroll  to **TAM SETTINGS** and press .
2. Scroll  to **ANS MODE** and press .

3. Press ▲ or ▼ to select either **ANS AND REC** or **ANS ONLY** and press  to confirm.

10.10 Re-instate the pre-recorded OGM

You can delete your own outgoing message and return to the pre-recorded outgoing message.

Using the handset:

1. Press , scroll to **TAM SETTINGS** and press .
2. Scroll ▼ to **OGM SETTING** and press .
3. Scroll ▼ to **DELETE OGM** and press .
4. Press ▲ or ▼ to select either **ANS AND REC** or **ANS ONLY** and press . Your personal OGM has been deleted and the pre-recorded OGM will be played.

NOTE

You cannot delete the pre-recorded OGMs.

10.11 Answer delay

Answer delay sets the number of times your D5 product will ring before the answer machine picks up your call and starts playing the outgoing message.

You can change this setting to between 2-9 rings or Time Saver. The default setting is 6 rings. When the answer on/off setting is set to off, the answer delay is 20 rings.

Using the base:

1. Press and hold the ► button and release after the number of rings required.

Using the handset:

1. Press , scroll to **TAM SETTINGS** and press .
2. Scroll to **ANS DELAY** and press . The handset will display the current setting.
3. Use ▲ or ▼ to select the number of rings required and press  to confirm.

10.12 Time saver

When you call from another phone to access your messages remotely, if your answering machine is set to time saver and you have new messages it will answer after 2 rings, if you do not have any new messages, it will answer after 6 rings. This means you can hang up after 3 rings knowing you have no new messages, saving you time and the cost of the call. Your handset will automatically return to standby if no button is pressed for 15 seconds or more.

10.13 Record a memo

You can record memo messages for other users which can be played back just like normal messages. Memos can only be recorded using the handset.

Using the handset:

1. Press , scroll ▼ to **TAM SETTINGS** and press .
2. Scroll ▼ to **MEMO REC** and press . Place the handset to your ear and you will hear, 'Please speak your messages after the tone. To end recording, press #', then a beep is heard.
3. You can now record your memo by speaking into the handset, press  to end recording.

10.14 Call screening

When the answering machine is on and takes a call, you can use the loudspeaker to listen to the caller leaving a message.

The handset display will show **SCREEN?**. Press  to begin screening the call via the handset. If you wish to take the call while screening, press .

10.15 Memory full

If there is less than 35 seconds recording time left in the memory, the caller will hear, 'Please complete your call within 35 seconds', after the outgoing message and before recording tone.

If the memory becomes full during recording the machine announces, 'Sorry, the memory full', and ends the call.

When the memory is full, the machine automatically switches to the Answer Only outgoing message.

Your D5 product can store up to a maximum of 60 minutes recording or 59 messages.

11. Using remote access

You can operate your answering machine from any DTMF phone by calling your D5 product and entering a 3 digit security PIN code.

The default PIN setting is 000. To change it, see “Set the security PIN code” on page 37. Using a PIN code prevents other people from accessing your answer machine and messages without permission.

11.1 Operating your answering machine from another phone

1. Dial your telephone number. When you hear your outgoing message, press . The machine announces, 'Please enter your security code'.
2. Enter your 3-digit PIN (default setting 000) within 8 seconds. You will hear, 'You have 'n' new messages' and they will be played back.

NOTE

If you enter an incorrect PIN code you will be allowed one further attempt, if it is still incorrect you will hear 'Incorrect security code' followed by a beep and then your D5 product will hang up.

3. If you have no new messages, you will hear, 'You have no new messages, to hear main menu press 1'. If you

do not press 1 within 8 seconds, the machine hangs up. When you press 1, you will hear the main menu.

Simply follow the instructions as announced:

'To play all messages press 2'.

'To play new messages press 3'.

'To skip back during messages press 4'.

'To delete during messages press 5'.

'To skip forward during messages press 6'.

'To set answer on or off press 7'.

'To hear the outgoing message menu press 8'.

'To set a new security code press 9'.

'To hear main menu again press 1'.

When the last message is played you will hear, 'End of messages'.

11.2 Set the security PIN code

Using the handset:

1. Press , scroll to **TAM SETTINGS** and press .
2. Scroll  to **REMOTE CODE** and press . The handset will display the current code.
3. Enter a new code and then press  to confirm.

11.3 Check security code

1. Press  at the base. The security code is announced.

12. Help

No dial tone

- Use only the telephone line cord supplied.
- Check that the telephone line cord is connected properly.
- Check that the mains power is connected properly and switched on.

No display

- Check that the batteries are inserted correctly and fully charged. Use only approved rechargeable batteries supplied.
- Check that the handset is switched on. Press and hold .
- Reset the base by removing the batteries and disconnecting the mains power. Wait for around 15 seconds before connecting it again. Allow up to one minute for the handset and base to synchronize.

Y icon flashes

- Handset is out of range. Move closer to the base.
- Make sure that the handset is registered to the base, see page 29.
- Check that the mains power is connected properly and switched on.

Keypad does not seem to work

- Check that the keypad lock is not on, see page 18.

icon is not scrolling during charge

- Adjust the handset slightly on the base.
- Clean the charging contacts with a cloth moistened with alcohol.
- Check that the mains power is connected properly and switched on.
- The battery is full. When the handset is fully charged,  icon will appear steady on the display.

No Caller ID

- Check your subscription with your network operator, see page 27.
- The caller may have withheld their number.
- The record cannot be found in your phonebook. Check that you have the correct name/number stored in your phonebook, with the full area code.

I have forgotten my PIN!

- Restore your D5 to its default settings, see “6.7 Emergency default”, page 24.

Cannot register a handset to the base

- You can register up to a maximum of 5 handsets to a D5 base. You must de-register a handset in order to register a new one, see page 31.
- Check that you have entered the correct PIN code (default = 0000).

- Check that you are at least one metre away from other electrical equipment to avoid interference when registering.

Handset does not ring

- The handset ringer volume may be set to Off, see page 20.

Base unit does not ring

- The base ringer volume may be set to Off, see page 23.

Noise interference on my phone or on other electrical equipment nearby

- Place your D5 at least one metre away from electrical appliances or any metal obstructions to avoid any risk of interference.

Answering machine will not record new messages

- Is the recording memory full? Play and delete messages, see pages 32-32.
- Is the OGM set to Answer Only? Change the OGM to Answer & Record, see page 34.

13. General information

IMPORTANT

This equipment is not designed to make emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.

This product is intended for connection to analogue public switched telephone networks and private switchboards in Singapore.

Important safety instructions

Follow these safety precautions when using your phone to reduce the risk of fire, electric shock, and injury to persons or property:

1. Keep all slits and openings of the phone unblocked. Do not set the phone on a heating register or over a radiator. Ensure that proper ventilation is provided at the installation site.
2. Do not use while wet or while standing in water.
3. Do not use this product near water (for example, near a bath tub, kitchen sink, or swimming pool).
4. Do not allow anything to rest on the power cord. Place the power cord so that it will not be walked on.
5. Never insert objects of any kind into the product vents as that may result in fire or electric shock.

6. Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
7. Do not disassemble this product. If service or repair work is required, contact the customer service helpline found in this user's Guide.
8. Do not overload wall outlets and extension cords.
9. Avoid using during an electrical storm. Use a surge protector to protect the equipment.
10. Do not use this phone to report a gas leak, especially if you are in the vicinity of the gas line.

CAUTION

To reduce the risk of fire, use only the supplied power adaptor.

Unplug this cordless phone immediately from an outlet if:

- The power cord or plug is damaged or frayed.
- Liquid has been spilled on the product.
- The product has been exposed to rain or water. Do not retrieve the handset or base until after you have unplugged the power and phone from the wall. Then retrieve the unit by the unplugged cords.
- The product has been dropped or the cabinet has been damaged.
- The product exhibits a distinct change in performance.

Installation Guidelines

1. Read and understand all instructions and save them for future reference.
2. Follow all warnings and instructions marked on the product.
3. Do not install this product near a bath tub, sink, or shower.
4. Operate this phone using only the power source that is indicated on the marking label. If you are unsure of the power supply to your home, consult with your dealer or local power company.
5. Do not place this product on an unstable cart, stand, or table. This product may fall, causing serious damage to the product.
6. Adjust only those controls that are covered by the operating instructions. Improper adjustment of other controls may result in damage and will often require extensive work to restore the product to normal operation.
7. Clean this product with a soft, damp cloth. Do not use chemicals or cleaning agents to clean this phone.
8. Use only the power supply that came with this unit. Using other power supplies may damage the unit.
9. Because this phone operates on electricity, you should have at least one phone in your home that could operate without electricity in the case the power in your home goes out.

10. To avoid interference to nearby appliances, do not place the base of the phone on or near a TV, microwave oven, or VCR.

Battery Safety Instructions

- Do not burn, disassemble, mutilate, or puncture the battery. The battery contains toxic materials that could be released, resulting in injury.

CAUTION

There is a risk of explosion if you replace the battery with an incorrect battery type. Use only the battery pack that came with your phone or an authorized replacement recommended by the manufacturer.

- Keep battery packs out of the reach of children.
- Remove battery packs if storing over 30 days.
- Do not dispose of battery packs in fire, which could result in explosion.
- The rechargeable battery packs that power this product must be disposed of properly and may need to be recycled. Refer to your battery's label for battery type. Contact your local recycling center for proper disposal methods.

SAVE THESE INSTRUCTIONS

Cleaning

- Clean the handset and base (or charger) with a damp (not wet) cloth, or an anti-static wipe.
- Never use household polish as this will damage the product. Never use a dry cloth as this may cause static shock.

Environmental

- Do not expose to direct sunlight.
- The handset may become warm when the batteries are being charged or during prolonged periods of use. This is normal. However, we recommend that to avoid damage, do not place the product on antique/veneered wood.
- Do not place your product on carpets or other surfaces which generate fibres, or place it in locations preventing the free flow of air over its surfaces.
- Do not submerge any part of your product in water and do not use it in damp or humid conditions, such as bathrooms.
- Do not expose your product to fire, explosives or other hazardous conditions.
- There is a slight chance that your phone could be damaged by an electrical storm. We recommend that you unplug the power and telephone line cord during an electrical storm.

Product disposal instructions

Product disposal instructions for residential users

When you have no further use for it, please remove any batteries and dispose of them and the product according to your local authority's recycling processes. For more information, please contact your local authority or the retailer where the product was purchased.

Product disposal instructions for business users

Business users should contact their suppliers and check the terms and conditions of the purchase contract and ensure that this product is not mixed with other commercial waste for disposal.

Consumer Products and Accessories Warranty

Thank you for purchasing this Motorola branded product manufactured under license by Suncorp Technologies Limited, 3001-3005 China Resources Building, 26 Harbour Road, Wan Chai, Hong Kong. ("SUNCORP")

Technical Information

How many telephones can I have?

All items of telephone equipment have a Ringer Equivalence Number (REN), which is used to calculate the number of items which may be connected to any one telephone line. Your D5 has a REN of 1. A total REN of 4 is allowed. If the total REN of 4 is exceeded, the telephones may not ring. With different telephone types, there is no guarantee of ringing, even when the REN is less than 4.

Any additional handsets and chargers that you register have a REN of 0.

Connecting to a switchboard

This product is intended for use within Singapore for connection to the public telephone network.

Recall

You may need to use the recall function if you are connected to a switch. Contact your PABX supplier for further information.
