reddot award 2014
winner

Beautifully engineered.
Precision crafting.
High quality execution.

Driven by our desire to design the ultimate home phone, we focused our efforts on pushing boundaries, both inside and out. Creative engineering inspired the precision crafting and use of innovative materials that are applied on the Motorola IT.6X – the impossibly thin phone!

Measuring less than 6mm at its narrowest point, the handset is made using a real metal frame, ensuring its robustness and a seamless striking form. The crystal base adds to its uniqueness and elegance, from every angle.

ecomoto™

Ecomoto is a convergence of efforts by marketing, design, research, engineering, and supply chain management that lead to better products for everyone. It is a holistic view that focuses on both social and environmental responsibility. It is both a passion and a shared point of view.

The right thing to do.

- Meets and / or exceeds EMEA environmental regulatory requirements.
- Eco friendly packaging with a minimum 20% post consumer recycled content.
- Phone housing is built with a minimum of 10% post consumer recycled content plastic.
- Energy efficient charger that meets EU Code of Conduct requirements.
- ECO mode function which reduces the transmitted power and energy consumption.
